

COVID-19 UPDATES

VAUGHAN RECREATIONAL GYMNASTICS

October 16, 2020

As of Monday, October 19, York Region will be rolled back to a modified Stage 2. Unfortunately, our club is affected by this rollback, and our recreational programs must pause as of Monday October 19. Once we are permitted to reopen, the remaining classes from Session 1 will take place.

Our start date for Session 2 is also delayed as a result of this pause. Session 2 will still run for 7 weeks, and once the start date has been established, we will adjust the end date accordingly.

An email has been sent to all registered members, and we will continue to update you once we have more information.

November 16, 2020

As of today, Monday, November 16, York Region has been placed in the Red-Control zone in the COVID-19 response framework. Due to reduced capacity limits, our recreational program continues to be paused. Once we know the date that our recreational program can resume, we will update you, and will conclude the remainder of Session 1 at that time.

The start date for Session 2 is also delayed. We will post new start and end dates on our website and contact all registrants once we have those dates.

We will continue to update you with further information.

March 29, 2021

Upon our closure in October 2020, registered recreational members had either 1 or 2 classes remaining in Session 1, depending on the day of the week that they were registered. These families will have the opportunity to finish those remaining classes starting on Monday April 5. Sign-up is ongoing, and all members that were registered in Session 1 have received an email with full information.

Once the remainder of Session 1 is complete, we will communicate information in regards to Session 2 to all members.
